

Land south of Chestnut Avenue, North Stoneham Park

PUBLIC EXHIBITION

Friday 24th October - From 3.30pm until 8pm

Pavilion on the Park, 1 Kingfisher Rd SO50 9LH

“We would like to invite you to an exhibition to be part of the future growth of your local area.”

Land south of Chestnut Avenue, North Stoneham Park has been identified for approximately 1,100 new homes of a range of type, size and tenure, a local centre, and other community facilities including a primary school. The site will also incorporate existing landscape features and provide large areas of public open space.

Work is now taking place to understand the constraints and opportunities within the site and establish a framework for its future development. As part of this process we would like to invite you to come to an exhibition to help us understand the local issues affecting the site. The exhibition will show the background to the site and an initial concept masterplan.

For those who are unable to attend on the day, all of the information displayed at this public exhibition and all key contact details will be available to view on a project website:

www.landsouthofchestnutavenue.co.uk

This web site will be updated regularly and a further exhibition is planned in December 2014 to update you on the proposals.

You can contact us via email chestnutavenue@wyg.com or by telephone: +44 2382 022800
